Current Opportunities

No vacancies at present

General submission of resume/CV: here.

Please submit your CV or details of your compliance experience using the '[Contact Us](#)' page.

Vacation Placements And Internships

In the past we have offered winter and summer intern schemes and our placement students are paid their travel costs each week.

The interns will assist one of our associates with their on-going compliance casework, providing a unique insight into the legal, financial and healthcare compliance world that is rarely observed by outsiders.

The senior associate will ensure that any particular interests expressed are considered when making the placement.

Interns also work with fellow placement students on a project designed to improve your presentation and negotiation skills.

Trinity interns will find the time spent here rewarding and enjoyable.
